

RAC bstreetsmart

Student debrief guide

Thank you for attending RAC bstreetsmart

RAC bstreetsmart exposes students to the realities of road trauma. The realistic nature of the event can be confronting for attendees and RAC recommends a student debrief is facilitated in the days following the event. This discussion guide and our online resources are designed to assist you.

Themes and messages to discuss following the event

- The far-reaching and long-lasting effects of road crashes and how road trauma can not only have an impact on you, but on the people around you and the wider community you live in.
- How peer pressure can influence decision making behind the wheel as a driver and passenger.
- Where to seek help in understanding and coping with the realities of road trauma (teacher, school counsellor or chaplain, parent/guardian, [Road Trauma Support WA](#) etc.).
- Consider strategies that will help you make safe decisions in the future.
- How a parent/guardian can support you in making safer decisions on the road.

Discussion questions

- How did the event make you feel?
- Why do you think RAC, WA Police, St John WA and the Department of Fire and Emergency Services wanted you to see this event?
- Discuss the characters from the re-enactment. Which characters can you relate to and what could they have done differently to change some of the outcomes?
- What strategies can you implement to be a safer driver or passenger?

Online resources – My decisions, my destination

These resources and activities are designed to help students reflect on the RAC bstreetsmart event.

- Students watch a series of short clips from a crash re-enactment docudrama.
- Accompanying resources encourage students to reflect on the decisions made by the characters in the film.
- Students consider strategies to help them make safer decisions as drivers and passengers in the future.
