

# RAC Opinion

Thousands of RAC Opinion members shared their views in this month's survey.

## Household conversations

What are members talking about at home?

### Fuel prices

Rising fuel prices were a hot topic, becoming the 3rd most discussed issue in September.

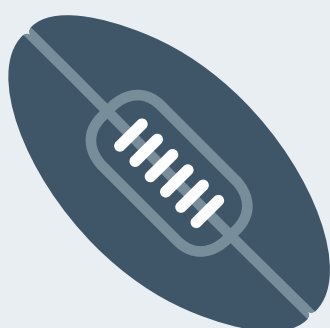

**“Price of fuel is restricting people’s travel. Affecting many small towns and businesses.”**

### Football / AFL

The Fremantle Dockers and the AFL grand final captured the attention of many households.

**“Cost of flights to Melbourne and the difficulty of obtaining a ticket to the Grand Final.”**

## Topical issues

What do members think about these issues?

### First Car

We asked members about the first car they learnt to drive in. The most common cars mentioned were the:

- » Toyota Corolla
- » Ford Falcon
- » Ford Cortina
- » Morris Minor

Many members reflected on the challenges and benefits associated with learning to drive in a vehicle with manual transmission.

Others noted that the experience of learning to drive is heavily influenced by the patience and knowledge of the instructor or teacher.

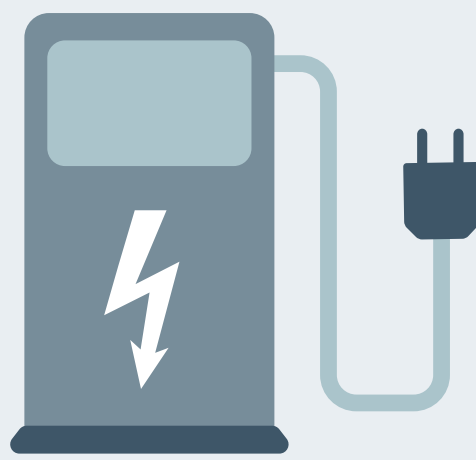

### Regional driving with an electric vehicle

**2 in every 5 members of an EV (based in Perth)** said that they drive in regional parts of WA at least a few times every year.

Over half of all EV owners have been able to travel more than 300km from Perth.

To encourage more regional driving with EV’s, owners are seeking.

- » More charging infrastructure
- » Faster chargers
- » Better facilities and amenities around charging stations

For the better
